

This property in Clinton sounds like a prime location for commercial development! With 4.75 acres right off Norrell Rd/St Thomas Parkway and close to the interstate, it offers great accessibility, especially being near Continental Tire. The versatility of the land makes it suitable for various types of businesses, including a convenience store, office building, medical clinic, or even a truck stop, which would attract steady traffic. The mention of additional lot/acreage across the road adds even more potential for expansion or complementary businesses. It's an appealing option for investors or developers in the commercial sector.

St. Thomas Parkway, Clinton, MS
